Ingersoll Rand Security Technologies
Unveils New Economical Cast Iron Door Closer

*- LCN® 1260 Door Closer Provides Durability, Versatility and Easy Installation
at a Competitive Price -*

CARMEL, IN, October 24, 2007 - Ingersoll Rand Security Technologies, a leading global provider of products and services that make environments safe, secure and productive, today unveiled its new LCN® 1260 cast iron door closer. Specifically designed for low to moderate traffic doorways, the economical ANSI Grade 1 closer represents an ideal security solution for office buildings, hotels, retail shops and other types of commercial and industrial facilities.

"For more than 80 years, LCN has been manufacturing best-in-class door closers that provide safety and security for all types of doorways," says Ryan Rouse, commercial product manager of Door Controls, Ingersoll Rand Security Technologies. "Today, with the introduction of our new LCN 1260, architects, builders, facility managers and security specialists can now capitalize on the benefits that cast iron closers offer in an easy and cost-efficient manner."

Engineered with a proprietary V-Shield seal technology, the new LCN 1260 closer exhibits a 20 percent better resistance to wear and stress than its aluminum competitors. The new LCN door closer also employs a durable O-ring that minimizes leaks, providing an enhanced reliability. Additionally, the high level of graphite in the closer's cast iron design helps to lubricate the piston and deliver a prolonged cycle life.

The new LCN 1260 is available with 10 different arm options and a 1 - 5 spring adjust, so it can be customize to meet the specific needs of each doorway. For added versatility, the new closer is also available with an optional delayed action feature.

Additionally, the LCN 1260 provides a streamlined installation process. Configured to fit most common commercial door closer footprints, the new closer is direct mount and includes a simple peel-and-stick template to help ensure installation

-more-

accuracy. A Quick-Fix Plate™ is also available for the new closer to help expedite the door closer replacement process.

Offered in seven standard, 11 plated and 150 custom finishes, the LCN 1260 can nicely complement a wide range of interior styles. Optional slim line covers are also available to provide architects, builders, facility managers and security specialists with a variety of aesthetically pleasing options.
