Product Release Information: Senior Swing IQ Firmware 2.1.2

Product	Senior Swing IQ
Version Number	2.1.2
Firmware Release Date	August 2026
Customer Support	For more information or support, visit the LCN website.

Attention:

This document contains the **Release Notes** for Senior Swing IQ device firmware version **2.1.2.** This version includes feature updates and improvements made after the 02.0.15 firmware package released in July 2026.

Installation and Update Notes:

Device firmware updates are available through the Optimize™ Mobile App.

Each Operator may be updated to the latest firmware by connecting locally to individual operators with the Optimize mobile application.

Firmware versions that will be installed with this update:

- **Comms App** **2.1.2, BL 0.2.1**
- Main App 2.0.8, BL 0.3.0
- BLE Firmware 01.01.12, BL:02.04.000002, SE:01.02.16

NOTE: The **BOLD** item(s) are updated from the previous release

Who should update?

Allegion suggests that customers utilize the latest firmware release to take advantage of the latest functionality, bug fixes, and security enhancements. We strive to provide the best products and service for our customers.

Specifically, any customer interested in any of the following Recent Change should update their devices.

Recent Changes:

- Fixed an issue where the Device would not be listed in the “In Range” section of the Optimize App. To recover if a device is affected by this issue:
    - Delete the Device from the Site in the Optimize App
    - Perform a Factory Default Reset on the Device
    - Power-Cycle the Device
    - Add the device back to the site using the Optimize App
